

DAVID H. LAYER

David Layer is Director, Advanced Engineering in the Science & Technology Department of NAB, located in Washington, DC. David has been with NAB since 1995, and has been very active in the radio standards setting area. He is also involved in NAB's technical conference planning and technical publication activities, and has been an author and contributing author for numerous technical publications, including serving as an associate editor for the just-released 10th Edition of the NAB Engineering Handbook. Prior to working at NAB, Mr. Layer was employed at COMSAT Laboratories in Clarksburg, MD.

Mr. Layer is an Associate Member of AFCCE where he serves on the association's board of directors, and is a Senior Member of the Institute of Electrical and Electronics Engineers (IEEE) having served a six-year term on the Advisory Committee of the IEEE Broadcast Technology Society. He also served as the Chairman of the annual IEEE Broadcast Symposium from 2002 to 2004. He received a BSEE degree from the University of Maryland, and an MSEE degree from Purdue University, where he was also a teaching assistant.
