

Gary Liebisch has been in broadcast engineering for over 30 years. He has held the title of Chief Engineer and Group Director of Engineering for stations in North Carolina, South Carolina, and Cincinnati, Ohio. He joined Harris Corporation in 1999, and was actively involved in product development for HD Radio as a Product Line Engineer and Product Line Manager for Radio Transmission. He has spoken on HD Radio implementation at several regional and national conferences, including several previous Ennes workshops. Gary joined Nautel in April of last year, as the Eastern U.S. regional Sales Engineer and Manager, and continues to play an active role in product development and issues of HD Radio implementation. He has been an active member of the Society of Broadcast Engineers for over twenty-five years, and is a Lifetime Certified Professional Broadcast Engineer. He holds a Bachelor of Science degree from Rensselaer Polytechnic Institute, in Troy, NY.
