

Public Radio Engineering Conference 2008

10 & 11 April 2008 — LVCC Rooms N232/N234/N236

SPEAKER BIO

Speaker Name:	Bob Surette
Session Title:	"RF Transmission Symposium"
Company:	Shively Labs
Title:	Director of Sales Engineering
E-mail address:	bsurette@shively.com
Website:	www.shively.com

Brief Biography (200 words or less):

Director of Sales Engineering with Shively Labs, a Division of Howell Laboratories, from 1981 to the present. Mr. Surette was graduated from Lowell Technological Institute, Lowell, Massachusetts in 1973 with the degree of Bachelor of Science in Electrical Engineering After serving 4 year in the Navy. He has been directly involved with design and development of broadcast antennas, filter systems and RF transmission components since 1974, as an RF Engineer for six years with the original Shively Labs in Raymond, ME and for a short period of time with Dielectric Communications.

He is currently a Senior Member of IEEE, an Associate Member of the AFCCE and a member of SBE. He has authored a chapter on filters and combining systems for the latest edition of the CRC Electronics Handbook and for the 9th and 10th Edition of the NAB Handbook.
